

Africanized Honey Bee Activity Sheet

HONEY BEES...

THEY ARE WORTH LEARNING ABOUT

European honey bee facts:

- Most Florida honey bees are the gentle European type
 - Honey bees are very important to agriculture
 - They buzz around spreading nectar from plant to plant which helps make the foods we love to eat, like watermelons, blueberries, strawberries and nuts
 - When you see bees flying around plants, chances are they are doing their jobs. If you don't bother them, they won't bother you
- However, the European honey bee has a grumpy cousin, the Africanized honey bee, who is not so nice and you should learn how to avoid them

AFRICANIZED HONEY BEES . . .

BEE AWARE . . . LOOK, LISTEN, AND RUN

Africanized honey bee facts:

- Look almost like the more common gentle European honey bees
- Defend their homes or hives if they feel threatened
- Pollinate, but not so well, because they move away often
- Africanized honey bees are like many other Florida insects that can cause harm, such as fire ants and yellow jacket wasps

What can you do to avoid being stung?

- The most important thing you can do is BE AWARE of your surroundings
- Stay alert when playing and making noise outdoors
- Look for bees before you or your family use noisy toys or tools
- Walk away and stay away if you see an insect nest or a lot of bees
- Tell an adult to call a pest control company to remove nest
- Be careful around possible nesting sites such as wood piles, bird houses, flower pots, and barbecue grills (see activity sheet on back)

What to do if chased by bees?

- Run away fast and get inside a house or building
- Tell an adult to call a pest control company to remove nest
- If stung, have adult remove stinger by scraping it out with a fingernail or card – squeezing the stinger will make it hurt more
- If someone who has been stung doesn't feel good, call 911 for medical help

Make your home safe

- Respect all bees and insects. Notify an adult if you find a nest
- Ask an adult to remove possible nesting sites (see activity sheet on back)
