

Notice to Growers Regarding Pilot Project Hemp Seed

Thank you for participating in the Florida Hemp program.

- Pursuant to Section 581.217(6), Florida Statutes, a licensee may use seeds approved by a Florida institution or university conducting an Industrial Hemp Pilot Project.
- Hemp Seed must go through an approval process by the institution or university, as detailed in 5E-4.016(3), Florida Administrative Code, prior to being approved Pilot Project Hemp Seed.
- Approved Pilot Project Hemp Seed must include the statement “Pilot Project Hemp Seed” on its label and clearly identify the institution or university that granted the approval.

- Pilot Project Hemp Seed is approved on a lot by lot basis, not a varietal basis, as such you should confirm that the lot being used is the one that received approval from the institution or university.
- A list of approved Pilot Project Hemp Seeds, can be found at:
