144 **PUBLIC COMMENT**

145
146 Mr. Hyde asked what information that the Committee is looking for in the requested surveys from the
147 probationers. He asked if the Committee is supposed to be rebuilding the survey using AutoCAD or is
148 the probationer expected to give enough information to for the Committee to review. Mr. Zoltek said that
149 the signed and sealed document must simply meet Rule 5J-17. Mr. Minnick said that the rule simply
150 states that the survey be reviewed, on/off probation, and if the survey meets or exceeds the Standards
151 of practice with no information on processes. Mr. Minnick stated that this rule needs further
152 development to address this issue. Ms. Collins said that electronic data is part of the problem. Mr. Gloer
153 said that he reviews surveys for the Board. He said that he thinks that part of the problem is that the
154 probationer does not know exactly what to submit to the Board as the instructions are not specific.
