While not required, it is recommended owners contact their veterinarian for guidance regarding the submission of samples. Fees charged by veterinarians typically reflect the time, expertise, and expense necessary to draw the sample, ship it in an appropriate manner, and provide treatment advice based on interpretation of test results. It is standard for diagnostic fees charged by veterinarians to exceed the laboratory test price.

Requested testing not available at the Bronson Animal Disease Diagnostic Laboratory will be sent to an accredited laboratory or a lab that can accommodate the request. These tests will incur additional charges based on the fee schedule of the other lab.

No portion of an animal's body, ashes, collars, tissues, or other articles will be returned following a lab service.
